The Longest Sunday

Editorial, D.C.J.

Anyone dreaming of a White Christmas? The heroes of a winter storm are the linemen crews

who work under pressure in horrendous conditions and the town plow crews who open the roads for them. It doesn't take 10 or 11 hours to prove to modern man how dependent we all are on the electric current that flows so unnoticed through the maze of wire that lines our roads and streets. Stop that flow in summer and serious inconvenience is experienced. Stop that flow in winter and each hour becomes an ever more serious emergency. We simply cannot maintain a dwelling very long without heat and most of us are completely dependent on central heat. Nothing quite proves the inadequacy of such auxiliary systems as an open fireplace in space such as most homes heat without concern. When the power stops, we become living legends of the "good old days" wishing for the one room log cabin of that period. In a major storm, we huddle together in a void without light, without all the toys upon which we have become so dependent and with a diminishing heat which reminds us constantly that water freezes at 32 degrees F. The hours drag.

Activity is limited to feeding what fire we can muster. Food becomes a major triumph. The first storm of this winter produced food for thought on how to conserve and generate non-electric heat. It will provide tall tales for a week to come for many. For one and all it proves the dependence we have on the easy flow of electrons, unseen, unnoticed and such a marvel that almost nothing in our time will work when they stop except, of course, the homeowner watching a falling thermometer.

As the electrons flow once more we tip our collective hats to the great job that opened the roads for the linemen and for

Selectmen's Meeting

BUS SERVICE EXPLORED

Selectmen are considering joining the Southeastern Regional Transit Authority in order to continue to provide the limited bus service at some possible lower cost than the \$5000 in subsidy which the town paid in 1980 for the 3 round trips per day. The subsidy has steadily risen to the point where Selectmen were considering discontinuing the subsidy to save the town money. A meeting called a week previous to determine if anyone used the service regularly was attended by less than 10 people but a petition was presented to Selectmen signed by 54 persons requesting continuation of the service.

Executive Secretary Carol Adams has made inquiries and explained to Selectmen that it may be less expensive to join SRTA than to continue the subsidy. Selectmen will seek a specific figure before

IS YOUR CAR WARM ENOUGH?

A dirty cooling system can make your engine run hot

When dirt, rust and sludge deposits clog the tiny passages in your heater core, you're in for a long uncomfortable winter behind the wheel.

That's because these blockages prevent your cooling system from circulating hot coolant from the engine through your heater to warm the inside of your car.

But you really don't have to freeze this winter. Because now there's a method of cleaning out your car's entire cooling system, including the heater core. With WYNN'S

...and your heater run cold.

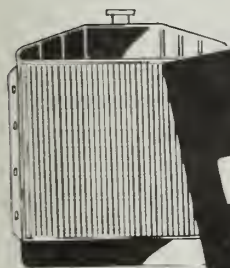

X-TEND Power-Flush and WYNN'S X-TEND Cooling System products. A new approach to cleaning and maintaining your automobile's entire cooling system, while helping to maximize cooling system efficiency.

WYNN'S X-TEND Power-Flush unit uses pressurized water and air to flush even those hard-to-reach areas of your cooling system.

So act now before a dirty cooling system can cause your heater—and your blood—to run cold.

APPONOGANSETT BAY TRUST

The Children's Museum of Dartmouth lost its Museum building at Russells' Mills in a fire and is now occupying temporary quarters on Old Westport Road in North Dartmouth. These quarters are clearly inadequate for the long run, so the Museum has been actively looking for a permanent facility and has been planning a drive to raise the necessary money.

With deafness one truly becomes isolated and the ability to "communicate" effectively becomes impaired.

At the Junior High School the students on Team 7 East are currently reading The Miracle Worker, the story which dramatically relates how Helen Keller (who at infancy was left blind and deaf after contracting scarlet fever) was taught the miracle of

BY *Bonnie Blaire*
TRU-TEST COLOR CONSULTANT

Dear Bonnie:

Why does the paint, that I chose so carefully to match my carpet sample, look dark and heavy now that it's painted on the wall?

Signed Disappointed

Dear Disappointed:

Yours is a case of "over matching." Often the best answer is **not** an exact match. Rather try to choose a color that, when painted on the wall, **seems** to match the carpet. To find this color, hold your carpet sample directly under the light in the Tru-Test Custom Color Selector. Then view your paint sample in the wall position (at right angles to the carpet). You will see that it takes a color several shades lighter than the carpet to match it in this position.

Any color will appear lighter or darker according to how much or how little light it reflects. Your floor reflects more light than any other plane in the room. Walls reflect much less light (the ceiling least of all). So to make your wall color seem to match your floor choose a light color.

season, the cards are particularly useful because they have information on such topics as refund policies, warranty rights, mail orders, unsolicited goods and contracts. Each card cites the applicable law and gives a brief explanation of the particular consumer right. Other cards, useful throughout the year, have information on auto sales and repair rights, generic drugs and shopping for credit.

PARKING "TICKETS" ISSUED TO HELP HANDICAPPED CONSUMERS

Holiday shoppers irritated by able-bodied citizens who park in spaces reserved for handicapped persons can now demonstrate their concern by "ticketing" the offender's vehicle, according to Massachusetts Secretary of Consumer Affairs Dr. Eileen Schell.

Dr. Schell urges concerned citizens to contact her office and request a free supply of parking "tickets" -- which carry the following reminder to offending motorists:

"This space was provided specifically

for physically disabled individuals.....If you are not disabled your future consideration by not blocking this space would be appreciated."

Noting that 1981 is being observed as the International Year of the Disabled Person, Dr. Schell stated: "Parking spaces reserved for handicapped persons should not be used by able-bodied drivers. When you thoughtlessly park in a handicapped space or across a curb cut, you may be depriving handicapped consumers of their right to shop or their right of access."

Concerned citizens may obtain a supply of handicapped parking "tickets" by writing: Parking Tickets, Consumer Affairs, One Ashburton Place, Room 1411, Boston, MA. 02108, or telephone 727-7780.

GO GOURMET!

Every holiday get-together - small or large - calls for one fabulous gourmet hors d'oeuvre. And, Swiss Mushroom "Pate" is just that.

Delicately flavored fresh mushrooms are sauteed with onions and then combined with butter or margarine and Swiss cheese, seasonings and Dromedary pimientos. Chilled in a bowl until firm, the result is a uniquely delicious spread for Triscuit wafers and Sociables crackers that will have your guests clamoring for more. And, it's so Christmasy looking topped with colorful Dromedary pimiento stars.

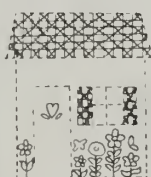

Holiday entertaining is fun. Capture the spirit of the season with this festive "Pate".
